

a Knowledge-task differences across supply–challenge classes

Numeric labels: |difference| ≥ 20 pp

Conditional task-share difference (NSF – NSFC, percentage points)

K01 State measurement & problem diagnosis · K02 Mechanism analysis & causal identification · K03 Scenario simulation & risk prediction
K04 Intervention design & performance optimization · K05 Planning support & policy design · K06 Implementation monitoring & impact evaluation

Near-aligned decarbonization: mechanism analysis -24.5 pp; design/optimization +30.1 pp
