# Research supply and task-profile differentiation

All research locations · 12 SDGs · six knowledge tasks

## United States · NSF

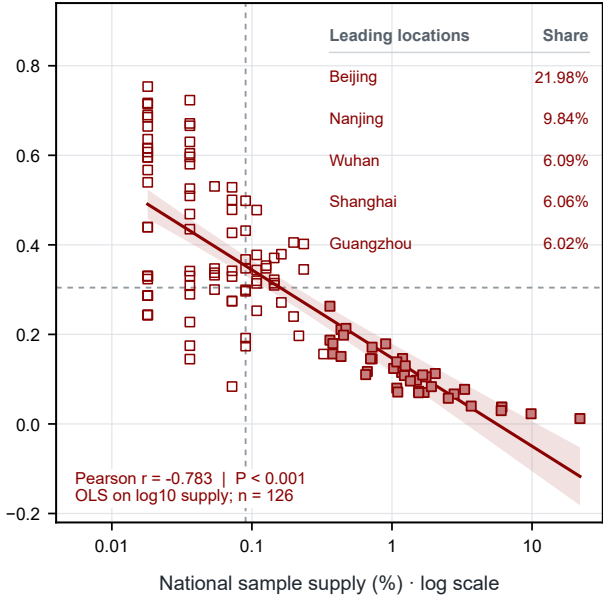

352 counties and equivalents

96 filled · 256 open

## China · NSFC

126 prefecture-level units

40 filled · 86 open

- <20 project families    - - - Within-country medians    95% CI for fitted mean
- ≥20 project families    — OLS fit on log10 supply

Each point is one location; all 478 are retained. In-panel lists show the five largest suppliers and their shares.

Fits are descriptive and unconstrained; differences in project support can affect the observed association.
